

KLU Calculator Regulation

Starting 01.09.2019, only the following three calculator models qualify as “non-programmable calculator” in an exam.

Texas Instruments TI-30eco	Casio FX-991 ES Plus	Texas Instruments TI-30XPROMV Multiview
 <p>A blue Texas Instruments TI-30eco calculator with a single-line LCD display showing the number 1234567890.99. The keypad includes standard arithmetic functions and scientific notation keys.</p>	 <p>A silver Casio FX-991 ES Plus calculator with a multi-line LCD display showing mathematical expressions: $\frac{3\sqrt{3} + \sqrt{2}}{2} + \frac{\sqrt{2}}{3}$ and $\frac{9\sqrt{3} + 2\sqrt{2}}{6}$. The keypad features a numeric keypad, function keys, and a central navigation pad.</p>	 <p>A black Texas Instruments TI-30X Pro Multiview calculator with a large multi-line LCD display showing an integral: $\int_0^{\pi} (x \sin(x)) dx$. The keypad is more complex, including a numeric keypad, function keys, and a circular navigation pad.</p>

Please note that only exactly these models will be allowed and no other versions or generations with a different model number. We recommend to purchase one of these models before the (new) semester starts.
